Education

Noida Institute of Engineering and Technology (NIET)

B.Tech in Computer Science (AI & ML) — CGPA: 7.07

Greater Noida, UP

Nov 2022 – Present

Dewan Public School

Class XII (CBSE) — Percentage: 71%

Hapur, UP

2022

Technical Skills

Technical Skills:

Languages: Java, Python, JavaScript

Databases: MongoDB, MySQL

Frameworks & Libraries: React.js, LangChain, PydanticAI, Pandas, NumPy

Tools & Platforms: VS Code, Git, GitHub, Jupyter Notebook, LangSmith, n8n

Core Skills: Prompt Engineering, Collaboration, Leadership, Problem-Solving

Experience

Sparkx Automations

Python Intern

Noida, UP

Feb 2025 – May 2025

- Used Pandas and NumPy for data handling and automation.
- Debugged and optimized existing Python scripts.
- Created automation scripts for repetitive tasks.

Projects

DentDost | *React.js, FastAPI, PydanticAI, Pinecone, Google Calendar API*

- Developed a full-stack conversational AI agent to automate dental clinic scheduling via natural language interactions.
- Engineered a robust backend using FastAPI and PydanticAI, seamlessly integrating the Google Calendar API for real-time slot validation and bookings.

Hand Gesture Volume Control | *Python, OpenCV, Mediapipe*

- Created a real-time hand gesture recognition system to adjust system volume using webcam input.
- Used Mediapipe to detect and track hand landmarks, mapping finger distance to volume levels.
- Implemented threading and error handling for smoother, lag-free performance.

Telegram E-Commerce Bot | *Java, Spring Boot, PostgreSQL*

- Built a Telegram bot where users can easily browse a shop's catalog, add items to their cart, and buy things.
- Created a website panel for admins to add new products, manage the shop, and keep track of customer orders using a database.

Leadership / Extracurricular

Class Representative

August 2024 - June

- Served as the Class Representative, acting as a link between faculty and students to ensure smooth communication regarding academic schedules, assignments, and important announcements. Collected feedback and concerns from classmates and conveyed them to the department for timely resolution. Assisted in coordinating class activities and maintaining an organized flow of academic information.

Achievements

- Solved **400+** DSA problems across platforms like LeetCode, Codeforces, and HackerRank.
- Earned **14+** certifications in AI, ML, Web Development, and Python.
- Secured **Top 10%** rank in college-level coding competitions.
- Contributed to open-source projects on GitHub.
- Participated in workshops on AI, ML, and cloud computing.
